Weekly Meeting Minutes

Dai Jialun

December 5th, 2014

1. Meeting Host, Time and Place

- Meeting host: Dai Jialun

- Meeting time: 16:00-17:30 December 5th, 2014

- Meeting place: Conference Room , Nouth Building of College of Information Science and Engineering

2. Meeting Agenda

1. Wei Tengda made a report about Learning PDEs for Image Restoration via Optimal Control.

2. Wang Ruchen made a introduction about Shape Contexts.

3. Discussion.

3. Things to note

1. The PPT should be focused on the ideas and expression, not completing it. When giving a presentation, the speaker should try to make audiences understand what you talk about.

2. It's vital to notice the advantages of new method as well as the disvantages.

3. Choose to the right shortcut and don't spend time on exploring all the time.

4. It is of great help to keep your attention on working for a long time.

5. Target (for the first-year graduate students):

   - Scores are up to 85 in all subjects

   - Discovery everyone's own direction

- Complete the program based on OpenCV 3.0

4. Next Meeting

The next meeting will be hosted by Wang Ruchen.
